

# Meet Your Match, and Save a Life!

Remember, when you adopt, you're a superhero. You save a life! Rescue groups help pets find forever homes with new adopted families. They want loving homes for loving pets, not just to make money like pet stores, puppy mills and backyard breeders.

Why do pets lose their homes? Rescue groups hear a lot of stories. "My dog is out of control." "My cat poops on the floor." "My new landlord doesn't allow pets." "I have too many pets." "They got too big." "I can't find homes for all the puppies." "They cost too much." "They're not cute anymore." Now that you know how to make a good forever home, choose a good match when it's time to adopt your next pet!

Match each pet with the family that could give them a forever home.
