

# The Scoop on Poop

Just like you and me, dogs and cats poop and pee!

Indoors is the safest place for a cat, and a clean litter box is healthier for everyone. How can you make the litter box a "happy place" for your cat?

**Circle true or false:**

a) A smaller litter box is better.

**True False**

b) The litter box should be in a quiet place. **True False**

c) Any kind of kitty litter will work for your cat. **True False**

d) Scoop the waste out of the litter box every day and wash the box every two weeks with mild soap.

**True False**

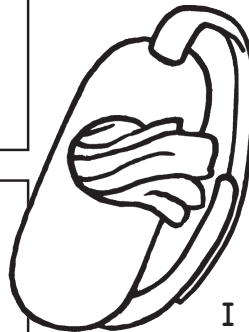

e) Don't yell or hit your cat if they poop outside of the box. **True False**

You should have one litter box for each cat PLUS ONE EXTRA. If you have three cats, how many litter boxes do you need? \_\_\_\_\_

Puppies can poop up to five times a day! That's a lot of poop (and pee) to clean up.

**Do the math:**

**6 puppies x 5 poops = \_\_\_\_\_ poops to clean up EVERY DAY.**

I scoop and toss my dog's poo  
Why don't you scoop too?  
It only takes a minute  
Then nobody steps in it!

a) False—the bigger the better! b) True; c) False—you might have to try a few; d) True; e) True—remember to always be kind to your pet. Number of catboxes: 4. Number of puppy poops: 30.
